VOLUME NUMBER 97 | CAMERON, MILAM COUNTY, TEXAS. THURSDAY June 7, 1956 | NUMBER 10

Equalization Board, Planning Group Set; Garbage Law Read

Cameron City Council might be technically in session until the third week in June. On motion of Lincoln Mondrik and second of Roy Griffith and without the formality of a vote the council "went home" Tuesday morning minutes before 1 a.m.

Final reading of the annexation ordinance made Cameron larger. It now takes in the home of Acting City Attorney Bill Black and made him eligible for swearing in ceremonies on Wednesday as City Attorney with a new salary of $150 per month. City Judge Baskin was voted $100 per month to the end of the fiscal year.

A twenty mile speed zone was established around all public schools. Letters are ready to go out requiring property owners within 100 feet of sewer lines to connect to same. On sanitation Dr. David Sharpiro, City Health Officer reported that investigation of the horse lot owned by R. G. Grabein was found to be perfectly safe from the health standpoint. Chicken yards in the vicinity however were declared a health menace and were the basis for discussion of regulatory measures. Dr. John Bryson reported that the per capita assessment for operation of County Health Unit has been reduced from twenty to nineteen cents, which means the Cameron participation will drop from $1440 to $1368.

A Board of Equalization composed of Postmaster John Hays, George McGehee and Dan Gunn had 9 a.m. June 25 set for its first meeting.

A suggested trash and garbage ordinance prepared by Attorney Bill Black, was examined, and referred to committee for study. Another ordinance, patterned after one in force in Killeen, called a "Peeping Tom" ordinance was passed. The recent instance of such violation could only be handled as the lesser offense of "Disturbing the Peace."

The Fire Department was represented by Fire Chief Carl Black and a request for 200 feet of 1½ inch hose was brought up and turned to committee. Inspection of a Dry Chemical fire extinguisher was made and it was voted to equip the city police car with such equipment. This will make it possible for automobile fires and the like to be extinguished without connecting water hoses. It was noted that $500 is in the budget for expense of a ten man team of the volunteer Fire Department to attend the State Convention at Edinburg from June 12-15. A proclamation signed by Mayor Robert Weems, following the meeting, read "Whereas some of the members of the Cameron Volunteer Fire Department shall attend a convention in Edinburg June 12-15 and Whereas the Cameron Fire Department, on those days, will be manned by a lesser number of firemen, now therefore I Robert Weems, mayor of Cameron proclaim the dates June 12-15 to be unusually hazardous and request a concerted effort of the citizenry to prevent fires and exercise EXTREME CAUTION in the use of fire during these dates.

A request for salary increases for fire truck drivers Frank and Bill Richter from $195 and $145 respectively was tabled.

The near completion of Highway 36 right of way purchase through the city was noted with word from Emory B. Camp that deeds for the Presbyterian Church property are being readied now for delivery to the city. The only remaining stumbling block is the purchase of the right of way from Magnolia Petroleum Company at the confluence of highways of State Highways 36 and 77. $2,400 has been offered the company by the city and $8,000 asked by the company. A delegation will go to Dallas to seek agreement on this right of way. Councilman Thompson, ordinarily ruddy complexioned, flushed as he demanded a "Stand up and be counted fight" to obtain this property at the city's figure.

Names of those to be asked to serve the city on a Planning Commission were listed as follows: Bill Burns, Henry Siebman, Richard Moseley, Benny Archer, Bob Williams, Jack Tumlinson, Hilliard Thomas, Richard Williams, Albert Matula and Herman Hornung. Many of the difficulties confronted during the night in regard to plats for development and other street and sewer problems were pointed to as subjects for discussion of the planning commission. Councilmen Charles Brady and Clifford Thompson are to serve with the planners.

13 Seasick Buckholts FFA Deep Sea Fishermen Make 75 lb. Catch

Buckholts F.F.A. Chapter this week completed two encampments of three days each.

The boys went on their annual three day encampment at Lake Granite Shoals Recreation Youth Center near Marble Falls on May 25-27. There the group enjoyed fishing, boating, swimming and sun bathing. The trip was planned by the newly elected FFA officers who are President Albert Abel, Vice Presdient, Dwayne Orsag; Secretary, Howard C. Von Gonten; Treasurer, Glenn Hutka; Reporter, Charles Hundle; Sentinel, Wilbur Jurea; Historian, Rueben Mendoza and Paliamentarian. Stanley Glaser.

Sheep for the barbecue at the lake was donated by Lloyd Ezzell. 50 gallons of motor boat fuel and a case of motor oil was donated by Frank Tomasek and Joe Glaser donated a case of eggs and 25 premium broilers. A parent banquet held prior to the journey of the youngsters was bolstered with a donation by Mr. and Mrs. Joe Zajicek and a number of other donations were given the chapter to permit the most enjoyable three day encampment according to Bo Titsworth, ag teacher.

Chaperones on the encampment which had facilities for a mixed group, were Mrs. Edwin Fischer and Mrs. Joe Zajicek, Mr. and Mrs. Louis DeWald and family, Mr. and Mrs. Carl Von Gonten, Jack Ruzicka, Antone Svetlik, Mr. and Mrs. Albert Abel, Mr. and Mrs. Frank Tomasek, Mr. and Mrs. Joe Zajicek and Mr. and Mrs. C. Titsworth, Vocational Agriculture Instructor at Buckholts Schools.

The FFA boys returned Sunday evening late to get ready to go Deep Sea Fishing on Monday, May 28.

The group left by bus for Freeportant room and arrived at the beach for a swim and beach picnic. The group expected to go fish ing at 2 a.m. but the Gulf was too rough. Tuesday was spent swimming and sunbathing until 7 p.m.

Students enjoyed the facilities of the Freeport Jr. High School gym for lodging by Mr. Hopper, local athletic Director, who is honored with having the Senior High Football Field named "Hopper Field" in his honor.

The sixty foot Porty Fishing boat "Big M" was boarded by the FFA fishermen and shoved off at 3 a.m. for the 40 mile fishing spot.

The weather was still in a foul mood as well as the Gulf waters with about 10 feet high waves. The tossing of the "Big M" was not appreciated by 13 seasick fishermen until the 40 mile zone was reached for fishing.

The catch was light, about 25 pounds of Red Snapper and approximately 50 pounds of King and other fish were caught.

The chapter and friends wish to thank C. R. Criswell, and Joe Glaser of Buckholts for the courtesy shown the chapter in the deep sea fishing expedition.

Sirens, Floats Open Baptist Bible School Monday Morning

Vacation Bible Students of the First Baptist Church passed in review twice with the employes of the Cameron Herald as Judges Monday morning following a nice rain.

The winning float was strictly ready for rain or shine with their float "Sailing Along to Vacation Bible School." This float of the Primary Department was adjudged on the basis of it's originality, participation and economy. Nothing expensive was used in the float which was made to resemble a sailing vessel named the good ship VBS. All aboard were actually a part of the "crew" with headbands which could well be taken for sailor hats. Equally as original in the idea "It's In The Bag" float of the Junior Department won second place, according to the best judgement of the critics. The participation of the riders on the float was not quite equal to the sailors and the thriftiness of the decoration was apparent. The Beginners float "Bee In VBS" and displaying paper bees came up to the judging specifications all the way around and this float was the reason the judges had to see the floats a second time. Actually the second and third floats could be called a tie but for the sake of the record the "In The Bag" float had a little bit of an edge and so the order was named Primary, Junior and Beginner floats one, two and three.

Registration for the school was at 8:a.m. A processional in the Auditorium was at 8:45 and then the parade followed the rain approximately on schedule at 9:30. At 9:45 refreshments were served at the educational building and at 10 a.m. dismissal for the day.

Each succeeding day, following registration will be the same with 7:30 a.m. movies for the "Early5 Birds." At 8 a.m. Processional in the Auditorium and at 11 a.m. dismissal.

More than 200 boys and girls participated in the opening day exercises on Monday.

The city's fire truck lent the necessary color to the parade with the thought that here was a large group of youngsters "On Fire For Vacation Bible Study".

Notice of the winning floats was made known at the Tuesday morning exercises.

The Law

This Week In Cameron

One unsolved misdemeanor on the minds of Cameron Police this week is the burglary of about $100 worth of clothes from an automobile in front of a Cafe in Santa Fe town and reported to police by Mrs. Claudia Hill of Abilene who was visiting relatives here. Her car was parked in Santa Fe town and while she was visiting in the neighborhood stores the car was pilfered of all of her clothes. The police are working on several leads as to the identity of the thieves.

Cakes from a bread truck were the prey of a juvenile and, caught in the act, the youngster later signed a confession and was released into the custody of his parent. With the explanation that it was the same as a "parole."

A Driving While Intoxicated charge cost one Latin-American man $80 and suspension of his drivers license for six months.

A colored man whose car went out of control and he rolled over three times, according to witnesses, at the intersection of the Railroad crossing and West Sixth St, was charged with reckless driving and with having an expired drivers license.

A reckless driving charge cost one man $26.50 in city court.

George Green, colored, was charged with carrying a concealed weapon and paid both the county and city a total of $158.

Twelve tickets were given in moving violations in the following categories; No Drivers License, 3; Speeding, 5; Wreckless Driving 2; and Running Stop Signs 2.

Chief Dolan reports that this has not been an unusual week since he began his tenure of office here but that it can be called a determined effort on the part of the police to place more and more pressure on illegal operation of motor vehicles. No concerted drive or "Crack-down" is warranted, the chief said, unless the violations continue or go on an upturn.

An incomplete report in May reported last week showed total income from fines to be $361.50 The final report prepared for City Council showed the total to be $451.50.

Dolan said "We are not trying to see how much we can collect but we do want to show violators how much it is going to cost them to violate the law in Cameron."

Mrs. Eleanor Weinfeld and son, Bennie Ray have left Waco via train to New York, where they will join in a family reunion with her five brothers and one sister.

Eastern Star Installs Worthy Matron, Patron

Mr. and Mrs. Theodore R. Allen were installed as worthy matron and worthy patron of Cameron Chapter No. 553 in the traditional open installation ceremony Friday night in the Masonic hall.

Large floor baskets of pink glads with white and silver satin streamers were at vantages points over the hall. On the piano a low arrangements of pink glads were placed which later served as the center decoration for the dining table. The star point pedestals were covered with quilted white satin covers, and each star point was dressed in pastel pink, while the worthy matron and other officers were gowned in white lace or nylon floor length formals. Each officer carried nose-gays of pink rosebuds with white and silver satin streamers, the three colors of the worthy matron. These nose-gays were gifts from the worthy matron to her officers. Each male officer used a pink buttoneer in his lapel. They were dressed in white coats and black trousers.

Mrs. Ailene Bonds presided at the guest book.

Mrs. Hattie Wallace gave the address of welcome. Mrs. Carrie

Gause-Hanover People Get June 21 Austin Road Confab

A delegation of Gause and Hanover people plus E. A. Perrin and County Judge Charlie Smith are due to appear before the Highway Commission in Austin on Thursday, June 21, at 10 a.m. on behalf of a stretch of road connecting Gause with the County Seat via Hanover. The invitation to the June 21 meeting was extended to the delegation through Dixie Walker spokesman for the committee.

Those expected to go from Hanover are Frank Shafer a farmer-and Joe Robinson a merchant and from Gause Bill Gause, mail carrier; G. R. Varner, merchant; Clyde Wilson a farmer stockman; Lyd Cunningham a farmer stockman; D. B. Rains a service station owner; Mrs. Juanita Thomas, postmaster at Gause; W. L. Ditto, farmer stockman; J. T. Todd a farmer-stockman; Joe Moore a farmer stockman, J. A. Ely a merchant and Dixie Walker a farmer-stockman.

The people of the affected area have, according to Walker, lost heavily in wet weather in the past because at harvest time the truckers would not venture onto the existing road to come to their fields and buy their crops. The road improvement would mean much to economics of the area and would consequently make it possible or profitable for the people of the Gause area to trade in their own county seat rather than travel to neighboring Hearne for their purchases Walker averred.

Seventy-Eight Yoe Freshmen Get Diplomas In Promotion Exercises

78 students became Yoe High School Freshmen in promotion exercises held recently in the High School Gymnasium.

Soil Banking Can Be Fun

Soil Banking is right down the Little River Philosopher's alley. This week, in his column elsewhere in this paper, he explains how he plans to borrow enough acres from his energetic neighbors so he can put his whole farm in the Soil Bank and give not only his land but also his equipment and himself a good rest.

Don't miss this week's lesson in the grand art of finesse as practiced by the Little River Philosopher.

Wide Selection Of Careers Open In U. S. Army Now

High School students shopping for a career field can find a wide selection within the structure of the U.S. Army.

More than 100 technical training courses are offered by the Army. with qualified young men being given the opportunity of selecting a course before enlistment. Most of these training courses prepare a man for a job in a civilian industrial field as well as for military assignments.

For the man whose interests lie outside the technical fields, the Army offers a choice of branch assignments, and in some instances a choice of duty location.

It is possible to map a portion of a three-year Regular Army enlistment prior to being sworn into the service. "Choice, not chance" has become a reality for high school graduates that measure up to the Army's qualification standards.

The U.S. Army recruiter, whose office is located at 102 No. Main in Temple can furnish the details on how a young man can qualify for a military career of his own choice.

Operating more 2,400 miles of railroad trackage, the Navy railroad is larger than the Deleware Lackawwna and Western railroad. Railroad equipment includes over 350 diesel-electric locomotives, over 3,000 box cars and over 2,000 flat cars.

Before World War II carriers had approximately 4,500 kilowatts of ship's vice power; now they have 13,200 kilowatts.

LITTLE RIVER PHILOSOPHER, AS MIGHT BE EXPECTED, IS FIGURING OUT THE ANGLES ON SOIL BANK PROPOSITION.

Editor's note: The Little River Philosopher on his Johnson Grass farm on Little River as might be expected, is hard at work trying to figure out the angles on the soil bank, his letter this week reveals.

Dear editar:

Now that Congress has passed and the President has signed the Soil Bank bill, I have been giving considerable thought to how I can put it into effect this year. After all, if Congress is going to the trouble of offering me help, least I can do is figure out a way to accept it without stalling around.

As I understand it. the Soil Bank is now in effect, for this year, if I can meet the requirements, and I aim to try. because, since I suppose its will be in effect not only next year but several years to come, anybody who misses out on this year has just missed that portion forever, and it's not Congress' intention, or mine either, to miss out on anything as pleasant as getting paid for staying off my cultivator.

But what I can decide not to plant this year is a problem. However, I've been thinking. In view of the fact it would suit Washington mighty well to get rid of some of that money this year, and since all you have to do to qualify is to decline to plantha given number of acres this year, I have decided not to plant any Fall cotton this year. I will be glad to sign up on September 1 not to plant a stalk of that stuff this fall, and I figure if Washington is on the ball I should get my check before Christmas, maybe even before the election in November.

Of course, if Washington smells a rat in this deal, I have some other crops which ain't doing so well right now, in fact they could be turned back to grass like the Soil Bank stipulates merely by throwing my hoe away, and I would like to get those acres in at least. It's true I've already been to some expense in getting the crops up, but I figure this is a give and take proposition, and I'll make a sacrifice if Washington will make a bigger one.

Another thing I'd like to find out about the program is the possibility of borrowing acres from your neighbors. Say a man has some extra energetic neighbor who doesn't want to put any of his land in the Soil Bank. Since the purpose of the bill is to reduce the surplus by reducing the acreage, could I borrow his allotment and transfer it to my farm? I figure if I could get enough borrowed acres, I could put my whole farm in the Soil Bank, and give not only my farm a rest but me and my equipment too.

After all, Washington ought to be willing to lean over backwards a little if I'm willing to sit down altogether.

Yours faithfully,
J. A.

IT'S SWITCHCRAFT

— that's what it is!

You'll see when you try Buick's new Variable Pitch Dynaflow!

IT TAKES a new word to describe the magic at your command when you drive a '56 Buick — with the newest transmission of them all.

It's full power go-ahead on the instant. You can get where you were just looking in a shaved second's time — with the most modern and most thrilling surge of safety acceleration in the land today.

It's smoothness, too. *Complete* freedom from the "bump" and lag of gears shifting. Only with Dynaflow can you go winging away with so smooth a sweep.

And only with a '56 Buick can you enjoy Dynaflow's newest marvel. It's something the engineers call "double regeneration." Lets you start off like an Olympic sprinter, with the pedal pressed just an inch or less. (And driving that way, you get better gas mileage.)

There's more big news, too, that goes with this new Buick magic. And that covers a lot more than styling.

Sure — you'll like the graceful new beauty of the V-shaped prow and sweep-ahead look. And you'll like the extra room inside.

But as you drive you'll find that this Buick responds with the new might of a big, record-powered V8 engine of 322-cubic-inch heft.

It handles easy as butter to a warm knife. Tracks the curves like a plane on the beam. Makes any road seem paved with pillows.

And what's responsible for all this are more new engineering advances than Buick has ever made in one model year.

So why not come in and see — and feel — the difference they make? You'll soon know why owners find it's the best Buick yet — and the best buy yet, by far.

**New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.*

4H Clubbers To Get Awards In Stock Program

A variety of awards are offered to 4-H Club members for their achievements in livestock projects and activities through two National 4-H Award Programs.

In the Meat Animal Program, Thomas E. Wilson is providing two gold-filled medals of honor for winners in each county, a 19-jewel watch for the state winner, eight all-expense trips to the National 4-H Club Congress in Chicago for sectional winners, and $300 scholarships for the six top-ranking winners in the nation. Any 4-H Club member enrolled in a 4-H meat animal project may participate in the program.

Three $300 college scholarships are offered as awards in the 4-H Livestock Judging Contest at the Internation Live Stock Exposition by Armour and Company. The winning judges in each of the three divisions, beef cattle, sheep and swine, will each receive a scholarship.

Complete information on the programs may be obtained from county Extension offices. 4-H Club work is conducted by the Cooperative Extension Service, and the awards coordinated by the National Committee on Boys and Girls Club Work.

Deep In The Heart Of Texas

Texas Longhorn Cavern, the world's third largest cave, is one of the nation's most impressive natural wonders. Over eight miles of its labyrinthian splendor have been explored without an end being reached and the lowest point on the guided tour is an eerie 120 feet below the surface. The cavern is a popular attraction for tourists and sightseers, especially in the summertime, because it is a real cool cave. The temperature inside remains at a comfortable 64 degrees even in the hottest summer weather. Longhorn Cavern is located off U. S. Highway 281 four miles south of Burnet.

Dairy Products Top USDA June Plentiful Foods

Milk and other dairy products top the U. S. Department of Agriculture's plentiful foods list for June.

Beef is the only red meat on the list in contrast to recent months when meats dominated the plentiful listings.

High protein-content foods in heavy supply for June include canned tuna in oil, peanuts, peanut butter, and dry beans.

With stocks more than double a year ago, canned red cherries are still in heavy supply. Also, frozen cherry stocks are large.

Fresh grapefruit of excellent quality remains plentiful, since movement in recent months was less than expected. Latest survey shows that 10.6 million boxes are still to be sold - about 2 million boxes in excess of last year.

Onion supplies will be exceptionally heavy in June, since marketing of the early spring crop overlaps that of the late spring crop.

More rice is available than expected because exports ran lower than estimated.

The Shopper Abroad

Americans who haven't lived abroad would be puzzled and annoyed at the way people must go about shopping for food in other countries. In most of those countries, stores are usually fogbidden by law to offer such items as fresh meat under the same roof with canned vegetables and soups. In France, for instance, the housewife must go to as many as 14 stores to complete a shopping list - a fruit shop, a smoked meat store, a fresh meat butcher, a bakery, a dairy, and so on.

Here in the United States, whether we patronize a family-owned store or a big chain supermarket, we take it for granted that everything we want has been assembled for us - and that the highest standards of sanitation and convenience prevail.

In addition, we have come to expect and demand foods in a form which requires a minimum of preparation - and we are also accustomed to buying foods which once were available only seasonally at all times of the year. For example, Chain Store Age reports that the American housewife spent $8.2 billion in chain grocery supermarkets last year for perishable items requiring refrigeration The typical chain outlet has up to $75,000 invested in refrigerating equipment alone - four or five times as much as the investment in the entire store of 1925! These and the many other costs brought on by the demand for frozen and otherwise-processed foods help to explain why the "spread" between the price received by the farmer and the price paid by the consumer has widened.

PERFORMANCE
makes Ford V-8's outsell all other 8-cylinder trucks combined

ONLY FORD, among the four leading truck manufacturers, gives you a full line of V-8 engines that are performance-tailored to the job.

This benefit is most pronounced in the ½- through 2½-ton trucks where Ford has *five* V-8 power choices, as compared to a maximum of two for the others. Also, Ford offers performance where it really counts—with the most usable horsepower in the 2½-ton field.

All in all, Ford provides *seven* Short Stroke V-8 engines to match its full line, ranging from Pickups to 65,000 lb. tandem-axle BIG JOBS.

No other truck V-8's offer such a combination of advancements for ruggedness and *longer engine life*—for example, sodium-cooled exhaust valves that run up to 225° cooler, new tungsten-cobalt valve seat inserts that are all but wearproof, deeper Y-block for more rigid bearing support and smoother performance.

No other manufacturer comes anywhere near Ford's long *experience* in building V-8 engines. Out of this experience Ford has designed the line of engines that is revolutionizing truck performance today. Only Ford has the facilities for producing this modern line of proven Short Stroke V-8 engines at the price and in the quantities needed for today's power-conscious truck market.

See your Ford Dealer today! Ask him to show you the new Lifeguard Safety features, such as the deep-center steering wheel and double-grip door latches—features that only Ford offers!

Merchandising methods for most food products have undergone radical changes within the past few years, but in the case of eggs, F. Z. Beanblossom, extension poultry marketing specialist, says not many new approaches have used to inform consumers about egg values at the retail level. Do you know the food value contained in a pound of eggs or how many eggs are required to weigh one pound?

Firestone Tires Do Earth Moving Job

The story of the St. Lawrence Seaway, greatest earth-moving project ever undertaken by man, was telecast Sunday June 3, in the U.S. and Canada.

The telecast was the last of the 1956 "Wide Wide World" programs and represented the largest single cooperative effort ever undertaken in television and radio.

There are 25 major contractors on the American side of the Seaway and 22 of these contractors move more than 76,718,500 yards of earth compared with the total of 97,044, 500.

Brush removal, reseeding and proper use of pasture land has resulted in terrific improvement on one hundred and fifty to two hundred acres of permanent pasture land on the E. T. Jones, Jr. farm, seven miles east of Bartlett Texas. According to soil conservation service personnel of Bartlett. this has been accomplished in spitz of successive dry years in the area.

King Ranch Bluestem, Blue Panic and a mixture of native grasses are the plants which are being utilized to date in the re-establishment and improvement program. An acreage of these grasses, alone or in mixtures, is being seeded each year. Such plantings are being carried out on freshly cleared or otherwise disturbed ground or on old abandoned cropland fields. Good stands of grass have resulted from most of the plantings.

Deferred grazing or complete rest during the first growing season has enabled the new seedlings to establish themselves well. Regulated use following the first growing season has permitted the initial stand to thicken in crown development, produce seed and volunteer seedlings to come up and crown development, produce seed and volunteer seedlings to come up and survive.

According to E. T. Jones, Sr., the older areas that were seeded are four years old now, and are beginning to be remindful of the pastures of this area many years ago.

Ben Ramsey Runs On Conservation Of Water Platform

Soil and water conservation and greater protection for Texas families through good services and stability in government are the major issues on which Lt. Gov. Ben Ramsey will campaign for re-election this summer.

Ramsey, who is touring the state preparatory to officially opening his campaign, said, "Soil is the storehouse of agriculture and industry. Water is the key to both.

"People throughout Texas have made great strides in soil and water saving practices in the past 10 years." He added, "The state must give full assistance to equitable plans for conservation at the local level if we are to maintain a sound economy and reach our true potential."

On plans for protection of Texas families, Ramsey said the government must effect rigid rules of conduct and exacting controls over blind forces of influence. Ramsey cited the need for (1) strict curbs on lobbying; (2) stiff narcotic penalties, with life imprisonment or death penalty for the second conviction on charge of selling to minors; (3) eliminating loan sharks, and (4) an unceasing watch to assure families their insurance policies are sound.

Ramsey, who spearheaded the move to rid the insurance industry of "parasites" and eliminate said the results have been tremendous.

"Time and experience," Ramsey said, "will determine whether the barricades in our new laws are high enough and solid enough to keep ruthless speculators from preying upon the public. The scavengers will be back at the next session of the Legislature in attempt to gain back their lost special privileges.

"My ambition," Ramsey said, "is to wage the fight through to complete assurance of full protection to the public in all phases of government."

Ramsey, a life-long resident of San Augustine, lives at his farm home three miles from town, with his wife, the fermer Florine Hankla, and their two daughters, Rita Rhea six years of age, and Ann three years.

Granddaughter Of R. F. Linhorsts As Bride To Be

Mrs. Joyce Linhorst, daughter of Mr. and Mrs. Oval Linhorst of Fort Worth and grand-daughter of Mr. and Mrs. R. F. Linhorst of Sharp, and bride-elect of Bob Killman of Fort Worth was honored with a miscellaneous shower at the home of Mr. and Mrs. Ralph Caffey Saturday afternoon. Miss Anita Caffey was hossess with Mrs. Ralph Caffey and Mrs. Lenza Caffey assistants.

The refreshment table was laid with a white cloth and centered with an arrangement of gladioli.

Mrs. Fred Green of Temple registered the guests and also directed the games.

Refreshments of punch and cookies were served to 17 guests.

Chinese Nerves Intact After Four Centuries

Proof that a chinaman never loses his nerve was unearthed recently in Nantung during construction of highways and irrigation channels at Nantung, near the Yangtse River estuary.

Mumified bodies buried 400 years ago, identified as bodies of members of the gentry by a document, giving their names, addresses and dates of birth and death, found with them. All dated from the Ming dynasty and were "intact in outward appearance, including hair and beards." One was Ku Yao, of the imperial academy under Ming Emperor Kiatsing and the other two were identified as Ku Neng and his wife. Ku Neng had a bag of powdered incense in his pocket, some jewelry, gold and silverware were found with the bodies.

There they were, and they hadn't lost their nerve through the four centuries of mummification and then being disturbed in behalf of twentieth century progress.

Professors of the North Kiangsu Medical College found some nerve and muscular cells that appeared to be alive. Scientists are preparing to tranplant the cells to animal bodies to "test if they have any life vigor."

Proper land use and stocking rates, deferred and rotation grazing, brush control, reseeding, and cross-fencing and salt and water distribution are listed by G. O. Hoffman, extension range specialist, as tools of range management.

youth, beauty, Chevrolet, action!

The new Bel Air Convertible—one of 20 sassy-styled new Chevrolets.

Want to take the wheel of one of America's few great road cars? Want to send pleasant little tingles up and down your spine? Then hustle on in and try out a new Chevrolet V8!

Now showing—the happiest "double feature" of the year! One part is bold, new Motoramic styling. The other is record-breaking V8 action.

Hollywood has a heap of words that describe it: colossal, stupendous, magnificent. We'll settle for just the name—Chevrolet.

Because once you've driven this sweet-handling showboat, the adjectives will take care of themselves. Horsepower that ranges up to 225 makes hills flatter and saves precious seconds for safer passing. And the way this Chevrolet wheels around tight turns would gladden the heart of a dyed-in-the-wool sports car fan.

Stop in sometime soon and highway-test this new Chevrolet.

Misses Barbara and Margaret Young assisted in serving the guests frosted lime punch and cake squares. Tiny Japanese umbrellas were favors.

Mrs. Edwin Henry Gerdes of Austin and Mrs. E. B. Yager of Jones Prairie, Miss Hill's grandmother, Mrs. Hill from Lockhart and the sister of the groom-to-be, Mrs. Malcom Merriman of Seguin were present.

The couple is to be married at the First Baptist Church in Lockhart at 8:30 p.m. on June 23.

Mrs. Leo Wilkerson of 1800 Ft. Stockton Drive in San Diego, California and Mrs. Orville O. Rice, nee Zora Clark Wilkerson of Topeka, Kansas were the overnight guests of Mrs. Nina Wilkerson and of Mrs. Leona White in Cameron Sunday. They left Monday to sightsee in the Big Bend country before returning to their homes in California and Kansas.

Mrs. Jessie Hunter Smalley of Pawhuska, Oklahoma, left Wednesday morning after visiting in the home of Mrs. Lottie Bigbee, 215 N. Houston. While here she called on friends whom she has not seen in sixty-three years.
